

Eliminate your blind spots

Optimization of your cloud network infrastructure

MAXXYS 

Do you have full transparency of your network infrastructure?

 **Inconsistency**

 **Security risk**

 **Increasing costs**

Eliminate the blind spots in your Hybrid Cloud environment with AppNeta.

Cloud Network Monitoring is a must for every IT environment.

 **Business Continuity Management**

Reduce the RTO in case of a failure.

 **Cloud Network Security**

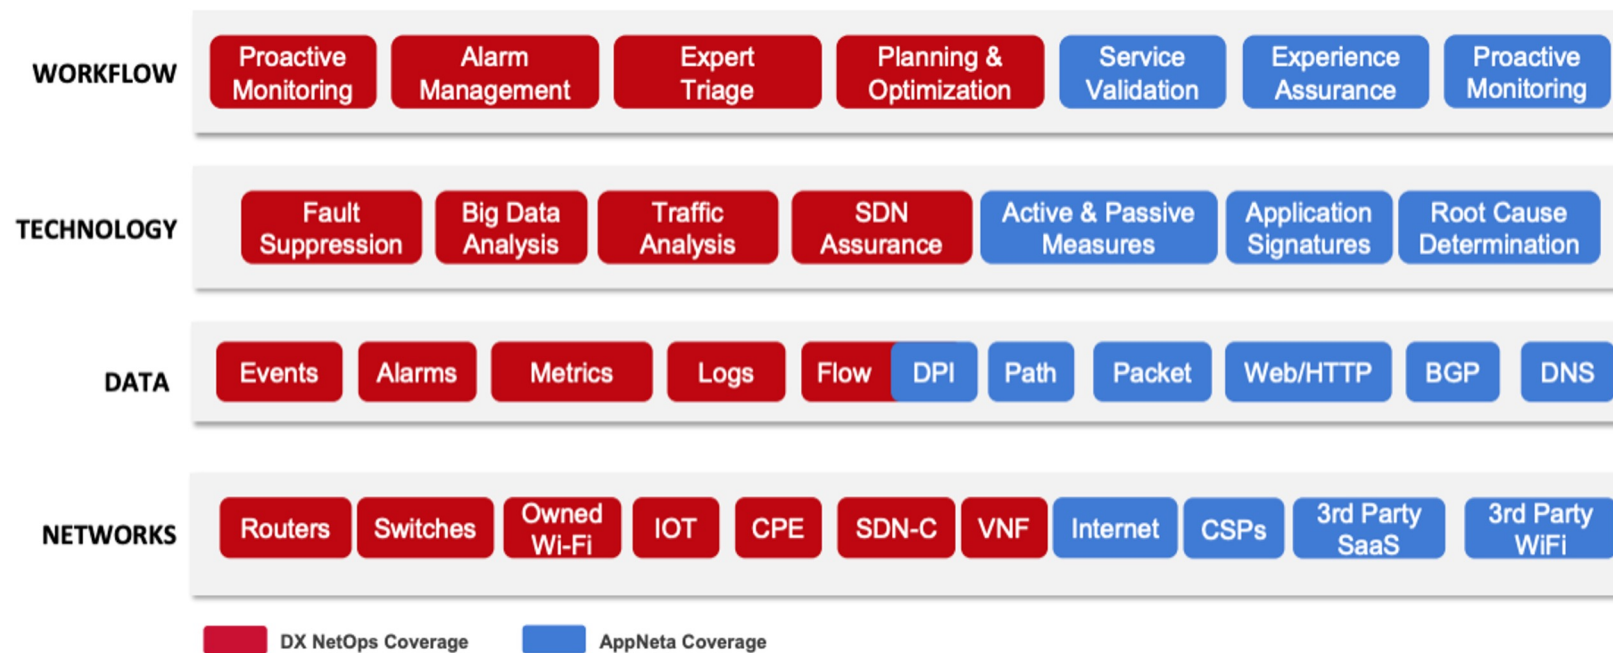

Increase the reliability and resilience of your IT.

 **Cloud Cost Management**

Reduce your cloud spent through full transparency.

Bring your Hybrid Cloud environment to the next level.

Broadcom provides a best practice to enable a holistic Cloud Network monitoring.

Increase the transparency of your IT landscape by combining DX NetOps with AppNeta.

MAXXYS is keen to support you implementing a new way of Cloud Network Monitoring.
